

PEACE ENGINEERING

November 12-16, 2018
Albuquerque, NM, USA

For the first time ever in the United States ... **WEEF-GEDC 2018.**

The largest engineering education gathering in the world, WEEF-GEDC 2018 combines several international conferences; uniting diverse stakeholders to learn, share, and build fruitful and long-term collaborations. WEEF-GEDC 2018 will take place in the heart of the Southwest in Albuquerque, New Mexico, and is hosted by the University of New Mexico School of Engineering in conjunction with the Ibero-American Science and Technology Education Consortium (ISTEC), and the Global Innovation Network for Entrepreneurship and Technology (GINET).

8th WORLD ENGINEERING EDUCATION FORUM (WEEF)

The annual joint summit of the International Federation of Engineering Education Societies (IFEES). A gathering of engineering education stakeholders to improve the field through enhanced dialogue on the major challenges, and through increasing the effectiveness of global partnerships, harness the expertise and commitment of the international community and of the local and regional players.

10th GLOBAL ENGINEERING DEANS COUNCIL (GEDC)

Providing engineering deans and rectors with ideas, tools, and best practices necessary to become innovative leaders of engineering education, research and entrepreneurship.

15th GLOBAL STUDENT FORUM (GSF)

Organized by the Student Platform for Engineering Education (SPEED), GSF draws academicians, representatives from government bodies, industry & non-profit organizations, and an increasing number of students from all around the world to discuss issues pertinent to the Engineering Education system.

1st GLOBAL CAREER FAIR (GCF)

An opportunity for employers and institutions of higher education to access engineering students from around the world and participate in face-to-face and virtual interviews.

WEEF-GEDC 2018 also features a Global Entrepreneurship Challenge, an Innovation Pavilion, and a Technology Showcase.

ABOUT THE THEME

PEACE ENGINEERING

The application of science and engineering principles to promote and support peace.

Peace engineering envisions and works towards a world where prosperity, sustainability, social equity, entrepreneurship, transparency, community voice and engagement, and a culture of quality thrive. Engineers have the power to play a vital role delivering creative solutions that can radically transform and improve human and natural wellbeing.

We invite you to be an integral part of WEEF-GEDC, Nov. 12 – 16, 2018

Attend, present and/or sponsor to meet engineering educators, academic, industry and government leaders, students, national laboratories, governmental organizations, non-governmental organizations, multilateral organizations and funding agencies from around the world.

The call for Workshops closes April 30, 2018. The call for abstracts closes May 25, 2018.
